

What is Food Alliance Certified?

Everyone deserves access to safe, healthy, and affordable food produced with safe and fair working conditions, humane animal treatment, and careful stewardship of ecosystems.

To meet this challenge, Food Alliance certification provides genuine traceability to farms, transparency in production practices, and a comprehensive third-party certification that ensures accountability.

Food Alliance Standards for a Better Food System:

- ★ Protect, conserve and enhance soil, water, wildlife habitat and biodiversity
- ★ Conserve energy, reduce and recycle waste
- ★ Reduce use of pesticides and other toxic or hazardous materials
- ★ Support safe and fair working conditions
- ★ Ensure healthy, humane animal treatment with no growth hormones or sub-therapeutic antibiotics
- ★ Guarantee product integrity, no genetically engineered or artificial ingredients
- ★ Maintain transparent and traceable supply chains
- ★ Continually improve practices

Food Alliance Certified products include meats, eggs, dairy products, mushrooms, grains, legumes, and a wide variety of fresh and prepared fruits and vegetables and prepared products made with these ingredients. Today, there are more than 350 Food Alliance certified operations throughout North America.
